# ¡Hello friends!

My name is **SUPER M** and I live in space. My 80 butterfly friends have invited me to travel around the world and discover all the good things that it has and the things that we could improve. Would you like to come? Would you help me answer any questions that may come up through out this trip? Are you up for it? You can ask for help to your family and teachers.

If we try to understand the world in a better way we can make it a much better place. It is your home and we are all responsible **to take care of it.**

**Are you ready to start?**

Let's go learn more about the world!

**Let's go!**

# Hello iceberg,

what do  
you hide  
beneath you?

6

In order to know more  
we need to deepen our  
knowledge

# Hello reef from Belize,

why do you grow  
in a tropical  
climate?

The coral reef has  
so much life

Hello fish,

how do you  
breath?

Some fish live together  
and others by themselves

# Hello coral from Indonesia,

why don't you  
live deep in the  
ocean?

The reef and its friends  
are beautiful!

Hello pyramids  
from Egypt,

how were you  
built if the wheel  
wasn't invented  
yet?

Ancient man also did great things
