

Hello Great Wall of China,

how many people
did it take to
built you?

Some animals can't go from one
place to another

Hello Chinese mountain,

why do you have terraces?

Look how we walk by the edge so we won't step on the plants

Hello Australian rock,

why are you
alone?

Wind and water have
so much strength

Hello Yellowstone
river,

why are
you so fast?

What a beautiful world!

Hello clouds,

why can't I
grab you?

You are part of the water cycle

Hello road,

why are you
so hard?

There are so many roads!

Hello Libyan oasis,

why do you
have plants?

It is great to see how you
help people from the desert!

Hello Teepee,

are you always in the same place?

There are similar stores in the northern part of Africa

Hello Portugese vineyard,

why do you
have to be
trimmed?

With the remains of pruning it is
possible to make food for plants

Hello Canadian trees,

68

how do you
survive with all
the cold?

The branches grow less
where the wind blows

Hello swans from the Alps,

why don't you
get wet?

I am remembering
the ugly duckling...

Hello Pennsylvanian pumpkins,

70

why do you live
at ground level?

The orange colored vegetables are
good for the eyesight
