TABLE 3. Association between eating behavior (high frequency of snacking, eating quickly, eating when bored, and eating from big packages) and presence of high methylation levels (> median) of *CLOCK* CpG 1.

CLOCK CPG 1 High Methylated	OR (95% CI) Logistic regression	*P* value
Snacking frequency	12.96 (1.35-123.97)	**0.026**
Eat fast	3.46 (0.81-14.74)	0.08
Eat when bored	8.68 (1.73-43.59)	**0.008**
Eat from great packages	19.28 (2.52-147.48)	**0.004**
